The screenshot shows a window titled "File Organizer - 0.0.1" with standard Windows window controls (minimize, maximize, close). Below the title bar is a menu bar with a "Help" option. The main content area is light gray and contains a login form. The form has three labels on the left: "Username:", "Email:", and "Password:". To the right of each label is a text input field. The "Username:" field contains the text "Bob". The "Email:" field contains the text "Bob@bob.com". The "Password:" field contains the text "Bob". Below these input fields are two buttons: "Sign On" and "Cancel". The "Sign On" button is on the left and the "Cancel" button is on the right. Both buttons have a blue gradient and a slight shadow.

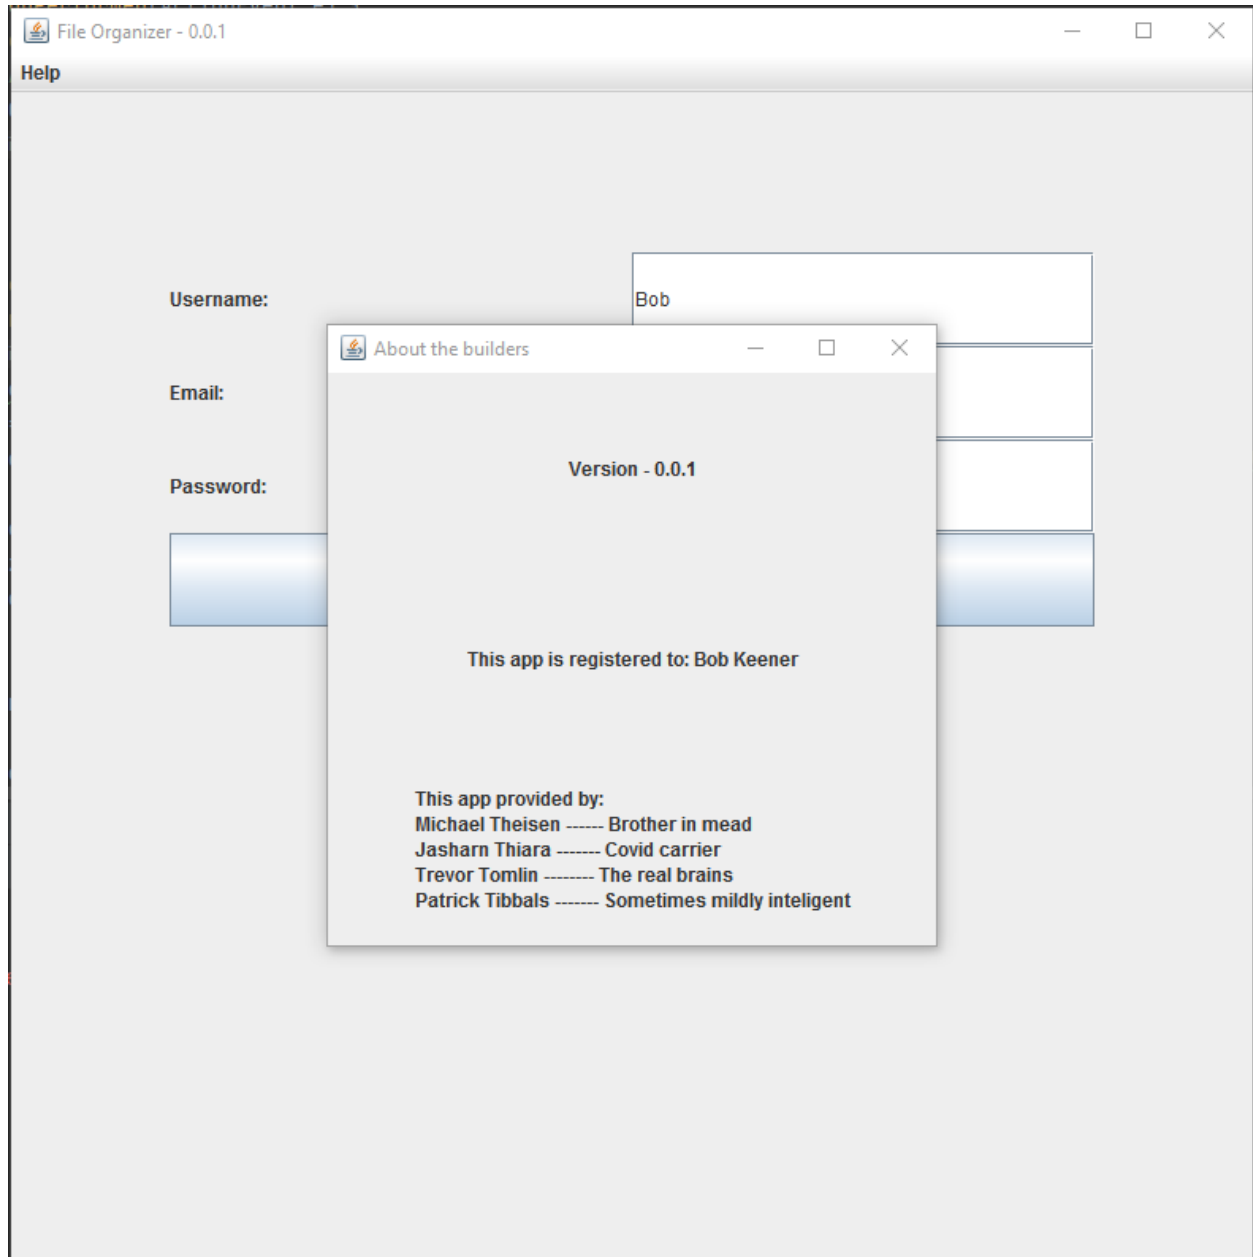

Username:	Bob
Email:	Bob@bob.com
Password:	Bob
Sign On	Cancel
